Jakarta Leads National Investment Realization in Q1 2026

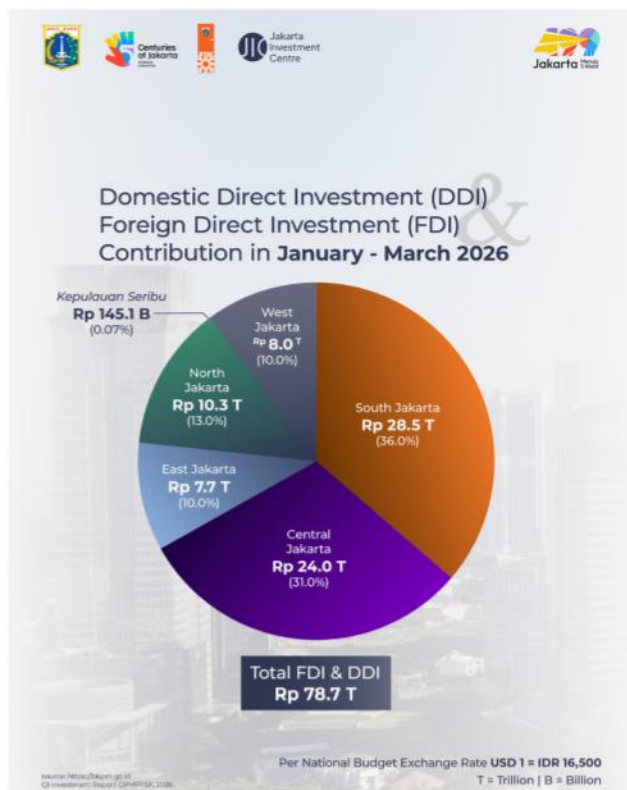

JAKARTA (18/5)

Jakarta began 2026 with a strong investment performance, emerging as Indonesia’s largest contributor to national investment realization in the first quarter of the year. According to data from the Ministry of Investment and Downstream Industry/Investment Coordinating Board (BKPM), total investment realization in Jakarta reached IDR 78.7 trillion during January–March 2026, accounting for 15.8% of total national investment realization.

The achievement reflects Jakarta’s continued attractiveness as a business and investment destination, supported by robust economic activity, an improving investment climate, and ongoing efforts to facilitate investment across priority sectors. Of the total realization, Domestic Direct Investment (DDI) contributed IDR 47.9 trillion, while Foreign Direct Investment (FDI) reached USD 1.9 billion, equivalent to IDR 30.8 trillion. Jakarta ranked first nationally in domestic investment realization and second in foreign investment realization, underscoring its significant role in attracting both local and international investors.

Compared to the first quarter of 2025, Jakarta’s investment realization grew by 12.86%, increasing from IDR 69.8 trillion to IDR 78.7 trillion. Domestic investment recorded a year-on-year growth of 13.35%, while foreign investment increased by 12.12%. This positive trend demonstrates sustained investor confidence in Jakarta despite ongoing global economic uncertainty and intensifying competition among major investment destinations in the region.

Several sectors played a key role in driving investment growth during the quarter. Transportation, warehousing and telecommunications, other services, and trade and repair activities emerged as the leading contributors, collectively recording average growth of more than 23% compared to the same period last year. The strong performance further reinforces Jakarta’s position as Indonesia’s primary hub for business services, logistics, connectivity, and digital economic activities.

To sustain this momentum, Jakarta Provincial Government continues to strengthen the city's investment ecosystem through enhanced investment supervision, improved facilitation services, and proactive investment promotion initiatives. Through the Jakarta Investment Centre (JIC), investment promotion efforts are being expanded to connect potential investors with strategic opportunities across the city, while initiatives such as the World Bank's B-READY Subnational assessment support ongoing improvements to the business climate.

Jakarta's strong performance in the first quarter of 2026 reflects the city's resilience and enduring appeal as one of Indonesia's leading investment destinations. Supported by a dynamic economy, strategic policy initiatives, and continued collaboration between government and business stakeholders, Jakarta remains well-positioned to drive sustainable investment growth and contribute to Indonesia's broader economic development throughout the year.

JIC and KPMG Indonesia Explore New Opportunities for Investment Promotion

JAKARTA (22/5)

As part of its ongoing efforts to enhance Jakarta's investment ecosystem, Jakarta Investment Centre (JIC) recently held a courtesy meeting with KPMG Indonesia to explore potential areas of collaboration in investment promotion, sustainable urban development, and innovation.

The discussion highlighted shared interests in supporting Jakarta's long term development agenda through knowledge exchange, strategic dialogue, and investor engagement activities.

Several opportunities were identified including discussions on urban resilience and innovative digital solutions. The meeting also explored ways to strengthen connections between investors and project owners through more focused engagement platforms, helping create a conducive environment for investment realization.

Moving forward, JIC and KPMG Indonesia will continue exploring collaborative initiatives that can support Jakarta's vision as a sustainable, resilient, and globally competitive investment destination.

Building Investment Bridges between Jakarta and China

Jakarta Investment Centre (JIC) was pleased to explore potential investment promotion collaborations with delegations from the People's Republic of China through a series of strategic engagements in May 2026. JIC first welcomed representatives from the Haikou International Investment Promotion Bureau at Department of Investment and Integrated One-Stop Services office on 6 May 2026, followed by participation in the “Invest in Jinjiang” Investment Promotion Conference in Indonesia 2026, held at Park Royal Hotel on 13 May 2026.

The meeting with the Haikou International Investment Promotion Bureau began with introductions to both institutions. During the discussion, Haikou highlighted its ongoing economic expansion through the Hainan Free Trade Port, with priority sectors including tourism, agriculture, modern services, and high-tech industries. As part of its investment promotion efforts, Haikou invited Indonesian businesses, including those from Jakarta, to explore opportunities in the city by leveraging various incentives offered within the Free Trade Port, such as legal facilitation, zero-tariff policies, and competitive tax rates.

JIC welcomed these opportunities and, in turn, introduced Jakarta's strategic investment projects, particularly in modern industry and tourism development in the

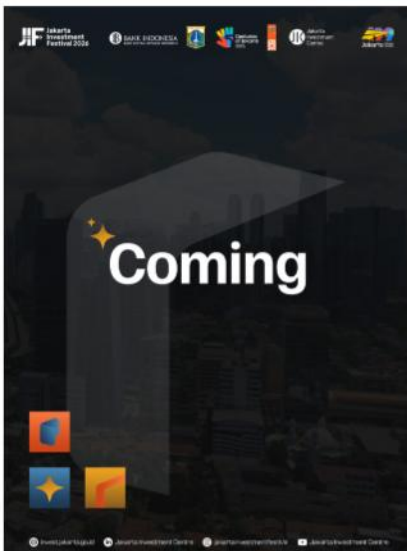

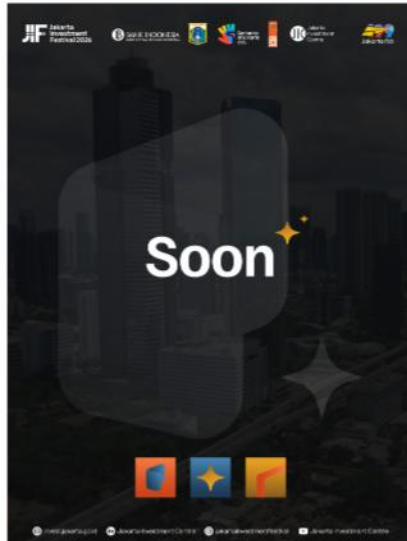

northern part of the city which could be collaborated with Jinjiang.

The dialogue on potential collaboration continued with representatives from Jinjiang District, who expressed interest in exploring opportunities in Jakarta's agriculture and healthcare sectors. While agriculture is currently not a priority sector for Jakarta due to land constraints, JIC welcomed further discussions on healthcare investment, which aligns with Jakarta's investment potential study for the Kebon Jeruk area as an all-generation family living district currently being developed and promoted by the city.

The exchange also highlighted opportunities for Jakarta-based businesses to expand into Jinjiang. Home to the iconic Chunxi Road, one of Chengdu's premier tourism and commercial destinations, Jinjiang offers a dynamic business environment for international enterprises seeking access to the Chinese market. Through this engagement, Jinjiang invited Jakarta's business community to explore growth opportunities and establish a presence in the district.

JIC looks forward to strengthening cooperation with Haikou Municipality, Jinjiang District, and global partners in advancing sustainable investment and supporting Jakarta's transformation into a leading Global City.

Advancing Today, Securing Tomorrow: The Journey to JIF 2026 Begins

The future of investment is not only about growth—it is about resilience, innovation, and creating long-term value. In 2026, Jakarta Investment Festival (JIF) returns with a renewed vision and a transformative concept: **One-Stop Investment Destination**—an integrated platform that connects government, businesses, innovators, financial institutions, and global investors within a dynamic investment ecosystem.

Carrying the theme “**Advancing Today, Securing Tomorrow**”, JIF 2026 reflects Jakarta’s commitments to fostering long-term, sustainable investment by

strengthening economic resilience, accelerating innovation, and expanding strategic partnerships. The forum will spotlight key opportunities in urban resilience infrastructure, innovative financing, and research and innovation—sectors that will shape Jakarta’s future as a global city.

More than an investment forum, JIF 2026 will serve as a gateway to collaboration through a series of **Strategic Dialogues, Project Showcases, Networking Sessions, and Deal-Making Platforms**, creating meaningful connections and accelerating investment realization.

Get ready to discover new opportunities, forge new partnerships, and be part of Jakarta’s next chapter of growth.

JIF 2026 is coming—stay tuned!
